

# YOU Are Invited!

View a local, compelling documentary that made national attention, one that addresses some of Milwaukee's ongoing headlines and heartbreaks.

This one hour movie, **Milwaukee 53206**, highlights a worrisome and shameful statistic on our doorstep...one you may or may not be aware of... that this zip code has the highest incarceration rate of any zip code in our entire country, and even the world!

There will be no charge, no offerings, and no fund-raisers for this event. It is entirely informative and inspirational! And those who come are welcome to come for the movie only, or to stay for the extra hour to interact on the solutions. We just felt that with all the negative news that comes our way, Christ-followers will welcome real news and real solutions being made by real people in our area!
